

K-Love has been a huge encouragement in my life. They provide great music, news, special interest, and support services that connect you to other Christians in the States. There is no other in our area like it. There is a lack of good and positive music/radio in our area and to allow it to be taken away would be a travesty in the Walla Walla community, as well as others across the country. Please hear the voice of the country and leave K-Love on the air!! For believers, families, children and non-believers alike, K-Love is a radio station worth keeping.
